Prepping Your Home

Where to set up:

I think the best place to set up is in your dining room or kitchen. These areas usually have a lot of great lighting from windows, but perhaps more importantly room for everything that I will be bringing with. bathrooms generally do not have enough counter top space or space for me to stand either in front of or behind my chair. although it makes more sense to do makeup and hair in a bathroom, this is not the case for a makeup artist/hair stylist.

How to prepare:

I will bring a chair with me. I just need a table near an outlet so that I can plug in my hot tools and a card table sized area to set up my products and tools.

Frequently Asked Questions

Q: Do I need to clean my house?

A: I promise not to judge you! I am a mother of two. It's impossible to keep a house clean. You only need to worry about clearing a 4'x4' table waist high table were we will be working.

Q: Do you bring a mirror or lighting?

A: I typically have a light with me for if an area has no natural light sources, but it's rare that I bring it in. As for a mirror, I do not need one to see what I am doing. I have a hand mirror with me so that when I am done, you can see your makeup in several light sources and you can see your hair in the Large bathroom mirror.

Q: Are Animals ok?

A: I do not have any allergies, however, my other clients may so mostly I just like to keep cats off of my work space and away from my kit.

Q: What should I have ready?

A: Have all your skincare, cosmetics, tools and a hand mirror. I will bring anything else that we might need.

GIVE THE GIFT OF GLAM!

NICOLE FAE
Makeup Artist

Nicole Fae is a premier makeup artist dedicated to enhancing the beauty and confidence of her clients.

WHY CHOOSE ME

- ✓ 19+ years of makeup expertise.
- ✓ Tailored lessons for all skill levels.

Unforgettable gift for anyone looking to elevate their makeup game.

Surprise your loved one with the ultimate beauty experience!

Virtual Lessons:

- ★ Real-time, one-on-one guidance from anywhere in the world.
- ★ Personalized advice tailored to your unique features and style.
- ★ Comprehensive product recommendations for your makeup kit.
- ★ Interactive troubleshooting for a seamless learning experience.
- ★ Master the art of makeup from the convenience of your home.

In-Person Sessions:

- ★ Hands-on learning in the comfort of your home or preferred location.
- ★ Tailored advice and application techniques.
- ★ Exclusive product recommendations for a flawless look.
- ★ Troubleshooting tips for any makeup challenge.
- ★ Time-saving techniques for efficient and stress-free beauty routines.
